## THE STOP ORGANIZATION-HAMPTON ROADS (STOP)

From the time of the American Revolution to the Global War on Terror, Americans have been at the forefront of fighting for freedom and equality for our country. With Operation Enduring Freedom and Operation Iraqi Freedom, these brave men and women have been and are still serving our country with the same dedication that has always truly shown "The American Spirit."

***"What Veterans of all generations need are quality healthcare, education and jobs-not being ostracized, shunned or ignored."***

***-The Honorable Eric K. Shinseki,  
Secretary, U.S. Department of Veteran  
Affairs***

That is why we must take care of our Vets as they transition into civilian life. This means we need to ensure that they are provided with the best care possible. That is what The STOP Organization Vet Re-Connect Program is all about.

**"FREEDOM ISN'T FREE  
WE SUPPORT OUR TROOPS"**

STOP's Vet Re-Connect Program is funded by the U.S. Department of Veteran Affairs. The primary focus of the Vet-Re-Connect Program is to promote "Housing First" through a multitude of supportive services. By placing Veterans and their families in a safe and permanent environment, their chances of achieving housing stability become much greater. The services that will be offered are:

- Rental Assistance
- Utility-Fee Payment Assistance
- Security or Utility Deposit Assistance
  - Moving Costs Assistance
- General Housing Stability Assistance
- Child Care Financial Assistance
  - Transportation
- Emergency Housing Assistance

STOP is a non-profit Agency that serves the six (6) Cities of Chesapeake, Franklin, Norfolk, Portsmouth, Suffolk and Virginia Beach and the two (2) Counties of Isle of Wight and Southampton. For forty-eight (48) plus years, STOP has been on the battlefield fighting for economically disadvantaged individuals and families by offering transformational opportunities.

The staff of The STOP Organization are very aware of the barriers that hinder low to moderate income individuals and families. For this reason STOP encompasses the "Total Family Concept" where the entire family is the focus for its services.

The STOP Organization partners with all of the Community and Non-Government Based Organization's as well as the Veterans Administration, Social Service Agencies, local Housing Authorities and other public and private entities within our service delivery area.
